Session Requirements

Community Members,

We have adjusted our requirements for congressional sessions. After determination from our Government Affairs Group Manager the following directive takes immediate effect:

- 24 hours' notice **MUST** be given before sessions. If you need an emergency session, file a government affairs ticket in the community center.
- Blanket passes are no longer allowed. You may propose a blanket resolution, but it must be submitted to the floor following the same procedure as any other resolution.

No exceptions will be granted on this directive, and must be followed or the session will be invalidated unless otherwise determined by Group Management.

This document was posted on behalf of Ghostbleed and AdamStratton, after being posted in [legislative updates](#)

Thank You,

united
