## INTRODUCTION

### TO THE CONGRESS OF THE UNITED STATES

I have the honor to present to you the Budget of the United States Government for the last Fiscal Quarter of 2024.

The Budget is one of the fundamental measures of motivation in our nation, providing for an incentive for our law practitioners to continue their profession and uphold the principles of justice that our community adheres to. This Budget does not only reinforce the integrity of our legal system, but it serves as a testament to the community's commitment towards the rule of law.

The plan flows from the demand of the Justice System within our community. As we embark on changing and visioning a true justice system, we must understand that we owe it to the people, as their representative and the responsibility, to answer their call and take the action they demand.

Whenever a legal claim is raised within our community's "Great Justice System", the legal representation is then absent. That speaks to our American People as they attempt to seek their legal rights within the courts. To be put in other terms, the Justice System is dying, there is no simpler or easier way to put it.

Pursuant to the provisions of the Budget and Accounting Act (31 U.S.C. 1-24) and other applicable laws, the budget for the last fiscal quarter of 2024 contains the summary of President Tea S. Oupss fiscal policies, revenue proposals, deficits, appendices, expenditures, and additional malicious items attached within the budget.

The Budget is a plan of Action. Defining the United States Government goals, charts the courses and outlines the expectations.  
The Hard decisions and difficulties choices as we begin to grasp the opportunities of the Great Society.  
Reasonable Needs. Not Extravagant nor Miserly.

# **THE ECONOMIC OUTLOOK AND THE ADMINISTRATION'S FISCAL POLICY**

As we transition into the second term of the Soups Administration, we are taking steps to revitalize areas of our government that need renewed support. In collaboration with Congress, we previously established a Federal Budget to fund executive branch departments and agencies; however, since much of the budget went unused, we have decided to redirect these funds toward initiatives that will have a greater impact on addressing stagnant parts of the community.

Following this effort, we have developed a revised economic plan for the coming months: a newly structured budget dedicating 75% of allocated robux to revitalizing the Department of Justice, the Public Defender's Office, and the Federal Bar Association. The lack of interest within nUSA's legal community has left our justice system inactive, undermining its ability to prosecute criminals and uphold the law effectively. Reviving the legal sphere is a central objective of this administration, as we aim to expand the pool of competent attorneys and prosecutors. This revised federal budget will directly provide incentives for employees, rewarding attorneys, prosecutors, and anyone involved in handling cases. Additionally, a portion of the budget will go towards advertising and recruitment efforts to attract

new members to the legal community. A streamlined pathway from the Federal Bar Association to the Department of Justice and Public Defender's Office will be streamlined. The budget will fund training programs and provide resources to simplify the process of joining these institutions. Additionally, these efforts align with the Attorney General's plan to establish a one-on-one mentorship program, offering hands-on training to prosecutors to enhance their skills. Together, the budget and these reforms will create a more active and effective legal framework within our government.

Furthermore, the budget seeks to discontinue funding for designing uniforms and reallocate funds toward developing new buildings and separate games. These adjustments ensure that any robux spent directly contributes to the operations of our departments/agencies. Through these measures, the Soups Administration is committed to revitalizing our judicial system and creating greater opportunities within the legal community. We will ensure that the government's resources are used to strengthen our nation's judiciary, enhance legal institutions, and build the foundation that will ultimately restore faith in the judicial branch.
